Transfer drill

1. Answer questions 1 to 5 in the booklet, then transfer all five together.
2. Before each block, say the first question number out loud and put a finger on the matching row.
3. After each block, check the last number you wrote matches the last row you marked.
4. If you find a row slip: stop and check the last certain question and another row. Change only answers you can reconstruct.
5. Practise a transfer method that finishes within your test's time limit.
