Multiplication tables check: four timed practice sheets

Year 4 multiplication practice: four original sheets, 25 questions each.

These are paper practice sheets, not official check forms or a prediction of a child's result. They contain a mixture of multiplication facts from the 2 to 12 tables.

The statutory multiplication tables check is on screen. It gives six seconds to answer each of 25 scored questions, with three-second pauses. A paper sheet with a single timer does not reproduce that format or its question-by-question limits.

Begin untimed if the facts are unfamiliar. An optional two-minute-30-second timer gives an average of six seconds per answer, without the on-screen pauses. Stop or leave questions blank when needed. This is a practice option, not an official time limit for paper work.

Mark the answers together using the final page. Look at incorrect and unanswered facts, then choose a few to explain and practise. An unanswered question alone does not tell you whether a fact was unknown, not reached or difficult to write down in time.

There is no statutory pass mark. A paper-practice score is not directly comparable with a national on-screen result. Do not use it to predict the check outcome or diagnose a learning difficulty.

Official parent guidance: www.gov.uk/government/publications/multiplication-tables-check-information-for-parents

Keep practice manageable and discuss any concerns with your child's teacher.

Timed practice sheet 1

25 questions | Optional timer: 2 min 30 sec | Name _____ Date _____

> Begin untimed or use the optional timer. Work in number order and write each answer in its box. You can leave a question blank and return to it. Review answers together afterwards.

1	$7 \times 8 =$	2	$11 \times 5 =$	3	$4 \times 2 =$
4	$11 \times 4 =$	5	$6 \times 4 =$	6	$7 \times 3 =$
